EDUCATION

G. H. Raison College of Engineering and Management, Pune	(Sep 2023 – June 2026)
Bachelor of Technology in Computer Engineering.	(CGPA : 8.53)
Maharashtra State Board of Technical Education, Mumbai	(Jan 2021 – June 2023)
Diploma in Compute Engineering at SVSMD’S KKI Polytechnic, Akkalkot.	(Percentage: 87.20)
Maharashtra State Board of Secondary & Higher Education, Pune	(July 2020)
SSC at Shri Shivachaleshwar High School & JR.College , Maindargi Dist. Solapur.	(Percentage: 92.60)

PROFILE

I am seeking an opportunity to work with a dynamic organization where I can apply my skills to contribute to its growth and success. I aim to continuously learn, enhance my existing abilities, and develop new competencies while advancing in my professional journey.

ACADEMIC PROJECTS

Workly – An AI-Powered Platform For Hyper Local Micro Job Finding :

- Built a mobile platform connecting skilled blue-collar workers with local job opportunities. Workers create profiles showcasing their skills and experience, search for nearby jobs using geolocation, and track applications in real-time. Employers post job listings and manage applications through an intuitive interface with instant notifications.

BlinkType Assist:

- BlinkType Assist is an innovative assistive typing application that enables users to interact with a virtual keyboard using only eye gaze direction and blinking gestures. Developed using Python, OpenCV, and dlib, this system leverages real-time facial landmark detection to track the user's eyes, detect gaze-based navigation, and use blinks for text input.

Stock Price Prediction using Machine Learning Using Python :

- The Stock Price Prediction is a web-based application which allows the user to predict the prices of stocks which he wants. The system will predict the price of stock on the basis of provided datasets of previous prices using deep learning model LSTM (Long Short Term Memory) algorithm.

Fast Food App :

- A modern full-stack mobile app for food ordering built using React Native (with Expo) for the frontend and Appwrite for the backend. The app features a dynamic menu system, customizable items, category filters, a shopping cart, and user authentication.

COURSEWORK / SKILLS

- C/CPP Language	- Android Development	- Python
- MySql / MangoDB	- Java Programming	- Linux
- Web Development	- Programming Software	- Problem Solving

TECHNICAL SKILLS

Languages: C/C++, Java, Python, HTML/CSS/JavaScript.

Developer Tools: VS code, Eclipse, JetBrains IDEs, Android studio, GitHub, Xampp server, Figma (Basics)

Technologies/Frameworks: React js, React Native (Expo), Tailwind CSS, AWT/Swing, Bootstrap.

EXTRACURRICULAR

- Hacktoberfest Jam (Microsoft Learn Student Ambassador Club).

CERTIFICATION

- Certificate for the Completion of Advanced Python Training (IIT Bombay).
- NPTEL (Enhancing Soft Skills and Personality).
- CSS3 (Infosys Springboard).
- Smart India Hackathon certificate at college level.
