

Hanif Jamadar

Pune, Maharashtra, India

jamadarmhanif@gmail.com | +91-8485037484 | GitHub | LinkedIn | Portfolio

Summary

B.Tech final-year Computer Engineering student with hands-on experience in full-stack development, React based applications, and project-driven learning. Built AI-assisted and data-driven applications with exposure to cloud fundamentals and software engineering practices.

Education

G. H. Raisoni College of Engineering and Management, Pune Bachelor of Technology in Computer Engineering	Sep 2023 – Jun 2026 CGPA: 8.65
Maharashtra State Board of Technical Education, Mumbai Diploma in Computer Engineering, SVSMD's KKI Polytechnic, Akkalkot	Jan 2021 – Jun 2023 87.20%
Maharashtra State Board of Secondary and Higher Education, Pune SSC, Maindargi Dist. Solapur	July 2019 - Jun 2020 92.60%

Projects

Workly – An AI-Powered Platform for Hyperlocal Micro Job Finding : (*React Native (Expo)*, *Node.js*, *Appwrite (NoSQL)*, *Machine Learning*)

- Designed and integrated secure authentication, role-based access control, job posting, and application workflows.
- Applied AI-based worker ranking and recommendation techniques to enhance job matching accuracy.
- The paper (**ID: 1749**) has been accepted for oral presentation at IEEE IATMSI-2026, to be held at ABV-IIITM Gwalior, India.

BlinkType Assist – Eye Blink Based Typing System : (*Python*, *OpenCV*, *dlib*)

- Created an assistive typing system enabling interaction through eye gaze direction and blink gestures.
- Utilized real-time facial landmark detection and gaze tracking for accessibility-focused input.

Fast Food Ordering Application : (*React Native (Expo)*, *Appwrite*)

- Engineered a full-stack food ordering application with user authentication, cart management, and order processing.
- Built responsive UI components and connected backend services for data storage and order handling.

Stock Price Prediction Using ML : (*Python*, *Streamlit*, *TensorFlow*, *LSTM*)

- Developed a web-based stock price prediction system using LSTM algorithm to analyze historical time series data
- Implemented an interactive Streamlit interface for visualizing stock trends and displaying predicted prices in real time.

Technical Skills

Programming Languages: C, C++, Java, JavaScript, Python

Frameworks: React.js, React Native (Expo), TypeScript, Tailwind CSS, Bootstrap

Backend & DB: MySQL, MongoDB, Node.js, Express.js, REST APIs

Cloud Computing: Microsoft Azure Fundamentals, Basic Cloud Concepts (Compute, Storage, Authentication)

Tools: Git, GitHub, VS Code, Android Studio, Eclipse, XAMPP, Figma, Power BI, Linux

Soft Skills: Quick Learner, Problem Solving, Debugging & Error Handling, Communication Skills, Teamwork

Certifications

- Advanced Python – IIT Bombay
- Enhancing Soft Skills and Personality – NPTEL
- CSS3 – Infosys Springboard
- Smart India Hackathon – College-Level Participation Certificate
