Summary

B.Tech Computer Engineering graduate with hands on experience in full stack development and building web, mobile, and AI powered applications. Strong problem-solving and software development skills with experience delivering end to end projects. Co-authored and presented a research paper at IEEE IATMSI-2026.

Technical Skills

Languages: Java, JavaScript, Python, C++

Frontend: React.js, Next.js, React Native, Tailwind CSS, HTML, CSS

Backend & Databases: Node.js, Express.js, Spring Boot, Hibernate, REST APIs, MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Docker, VS Code, Android Studio, Linux, Figma

Soft Skills: Problem Solving, Debugging & Error Handling, Communication, Teamwork, Quick Learner

Internship Experience

Navotkarsha IT Solutions Pvt. Ltd.

Dec 2025 – Jun 2026

Full Stack Developer Intern

Pune, Maharashtra

- Developed and enhanced **WorkTrack**, a worker attendance and management application, using React Native, TypeScript, Appwrite, and REST APIs, implemented 10+ core application workflows including attendance tracking, salary calculation, dashboard analytics, and admin management features.
- Built core features for **Roomify**, an AI-powered interior visualization web application (React.js/Vite), including responsive UI components, drag and drop image upload, authentication workflows, and frontend-backend integration (full detail under Projects).

Projects

Workly – An AI-Powered Platform for Hyperlocal Micro Job Finding : (*React Native (Expo), Node.js, Appwrite (NoSQL), Machine Learning*)

- Engineered backend infrastructure using Node.js and Appwrite, implementing role-based access control (RBAC) and secure authentication for a dual user (job poster vs. worker) marketplace.
- Built an ML based worker ranking and proximity recommendation system for accurate hyperlocal job matching.
- Co-authored and presented a research paper on the AI matching system at **IEEE IATMSI-2026** conference.

DevPilot – AI-Powered GitHub Repository Assistant: (*Java, Spring Boot, Next.js, Spring Security, PostgreSQL, Docker*)

- Developed GitHub OAuth2 authentication, repository synchronization, session management, and source-code indexing workflows.
- Implemented the RAG pipeline for code chunking, Gemini embeddings, PGVector storage, and semantic retrieval of relevant repository context.

BlinkType Assist – Eye Blink Based Typing System : (*Python, OpenCV, dlib*)

- Built a hands free virtual typing interface driven by eye gaze tracking and blink gestures.
- Used dlib facial landmark detection to map real time gaze input with low processing latency.

Education

G. H. Rasoni College of Engineering and Management, Pune

Sep 2023 – Jun 2026

Bachelor of Technology in Computer Engineering

CGPA: 8.62

SVSMD's KKI Polytechnic, Akkalkot (MSBTE, Mumbai)

Jan 2021 – Jun 2023

Diploma in Computer Engineering

87.20 %

Maindargi, Dist. Solapur (Maharashtra State Board)

2020

Secondary School Certificate (SSC)

92.60 %

Certifications

- **IEEE IATMSI-2026 Research Paper Presentation & Acceptance Certificate** – ABV-IIITM Gwalior
- **Advanced Python** – IIT Bombay
- **Introduction to Internet of Things** – NPTEL
- **CSS3** – Infosys Springboard
- **Smart India Hackathon** – College Level Participation Certificate
